We deliver...

### Ideal Conditions

America's Pacific Northwest offers uniquely ideal conditions for dairy. The clean air, fresh water and rich soil make a difference you can taste.

### Exceptional Quality

From the recipe to the product, Darigold dairy delivers a premium experience that meets the highest specifications.

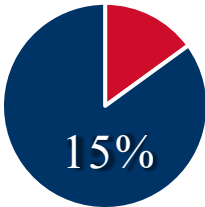

### Responsible Practices

With strong commitments to responsible farming and a tightly-knit network of farms and plants, Darigold delivers fresh products efficiently and sustainably.

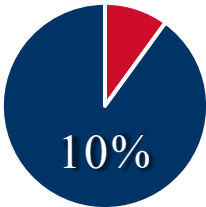

# Global Reach

We are currently selling to customers in nearly 40 countries and ship more 10,000 containers to every continent except Antarctica.

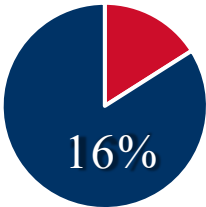

## Share of Total US Dairy Exports

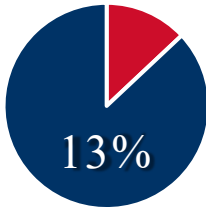

NFD/ SKIM MILK POWDER

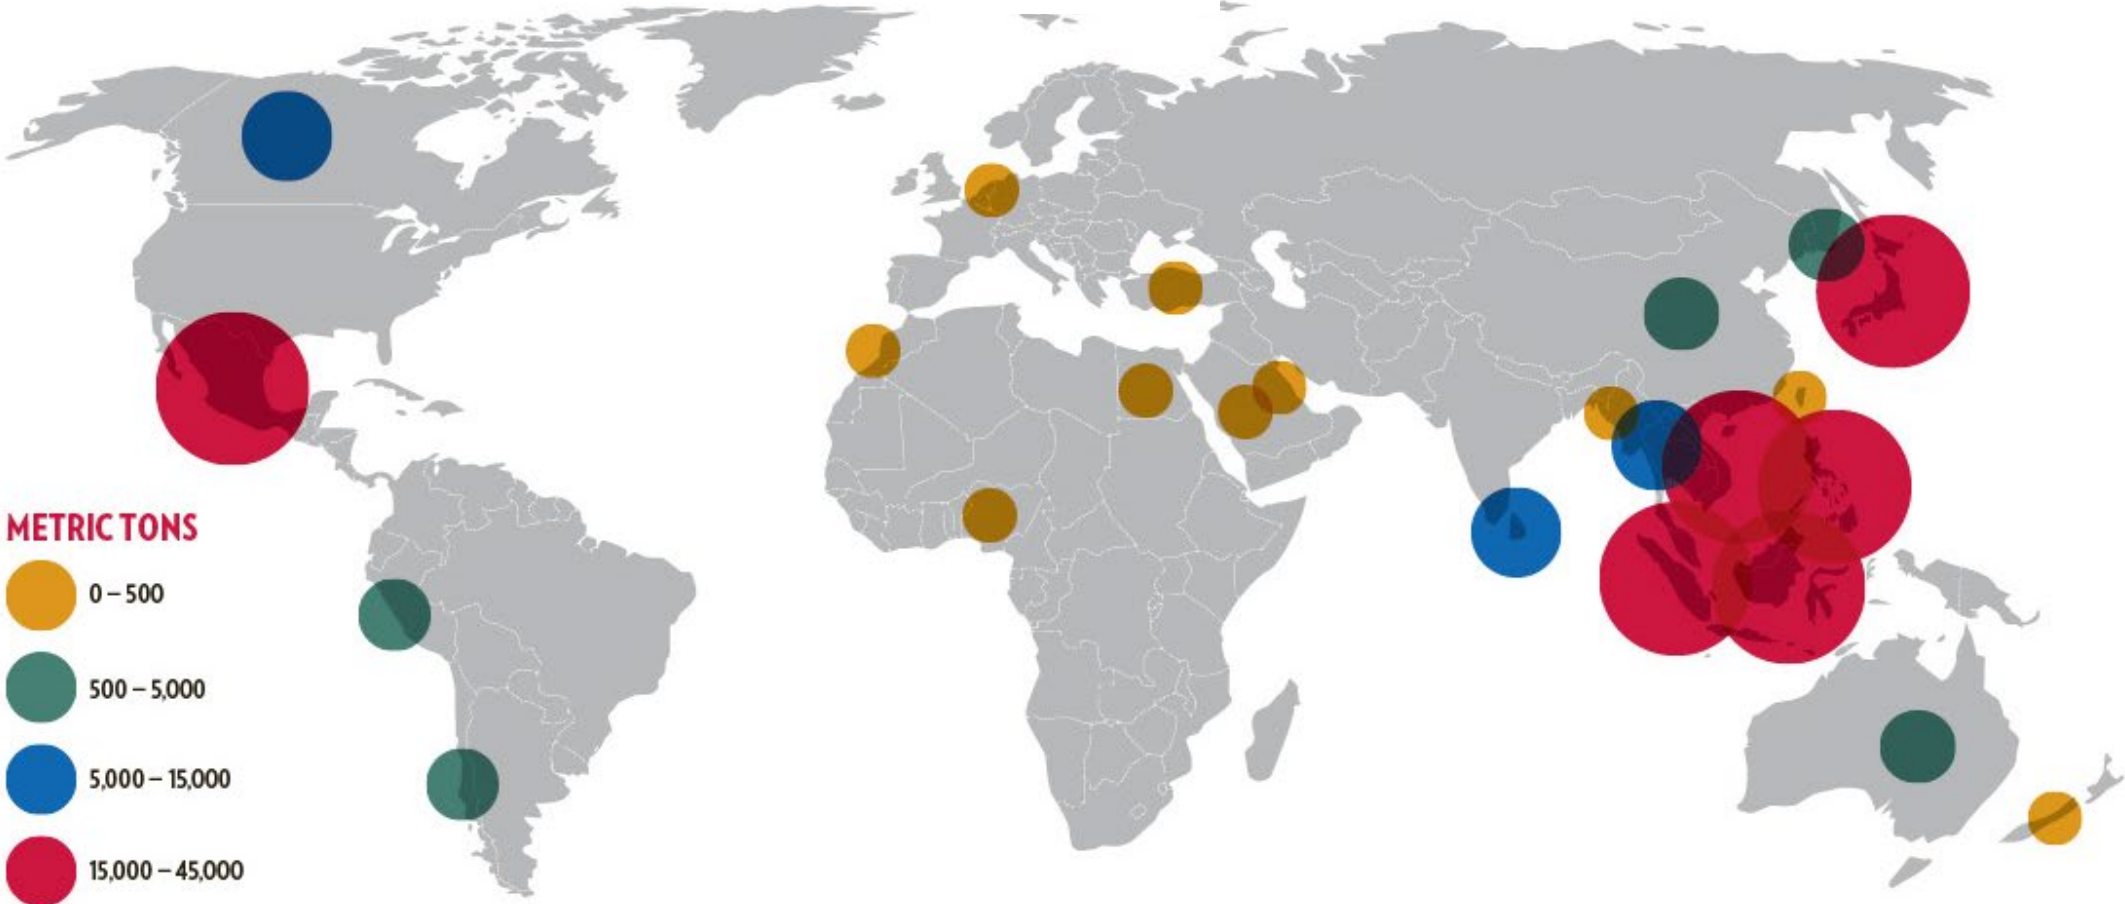

BUTTER

CHEESE

WHEY POWDER

# How we'll get There

First new high-care plant in the US since 2015

## Quick Facts

- Sits on 150 acres in Pasco, WA
- Direct rail access
- Will produce more than 7MM lbs of butter and powder a day
- Tier 1 and 2 powder capabilities
- Infant formula grade configuration (evaporators, dryers cyclones, indirect burner, air filtration)
- 24/7 dryer operation
- Broke ground in September 2022
- Reduced trucking mileage based on proximity to farms, access to global shipping infrastructure.

# OUR NEXT CHAPTER

Thank you.
